## Discount Campsites

Campgrounds are getting expensive; they are over \$100 per night. But there is good news! Most Elks lodges have RV parking, and the average charge is \$25 per night. They have thirty amps and most have a dump site. Go to app and get the Elks app it will give you every campsite in the USA.

All you do is join the Elks in your area. The average dues are \$180.00 per year for husband and wife. When you are traveling, call ahead to make your reservations. Most lodges are open for lunch and dinner – plus, the bar is open!

# FCOC PRESIDENT'S MESSAGE

Welcome to Spring!

By the time you read this, we will have held our Super Event in Yuma. This was a combination effort of the FCOC, the Fleetwood Motorhome Association and the Diesel RV Club. Look for a recap of the event in the summer issue.

The advent of spring has brought a lot of questions from our members regarding service and training offered at our events as well as at Camp Freightliner. I thought I would take this opportunity to provide answers to some of the common questions I receive.

Our club has several thousand members. We try to provide access to education and fellowship through our events in as many areas of the country as possible to minimize the distance members must travel. Generally, that means at least two events east of the Mississippi River and two events on the west side each year. While I do recommend our members visit the customer service center in Gaffney, SC, for service and/or training, it is certainly a lengthy journey for most members.

Our relationship with Freightliner Custom Chassis Corporation (FCCC) is such that they offer the Camp Freightliner classes, as a courtesy, in conjunction with our four national events. At the Yuma event we hosted the first ever Camp Freightliner for the S2RV Super C chassis presented outside the factory service center (and there's only been one of those). No other organization enjoys the same level of support from FCCC. The diesel pusher class is distinctly different from the S2RV class. Be sure to sign up for the correct class for your chassis. The Camp Freightliner is wholly owned and operated by FCCC. Booking for the class is handled through their website.

It is a long way to Gaffney, SC, for many members. Consequently, the Camp Freightliner is a major attraction for our events. When taking a Camp Freightliner at one of our events, you will need to sign up for that class in addition to signing up for the event itself. Generally, the class is limited to 25 coaches. Seating in the Camp Freightliner class is at a premium and always fills up with event attendees. We reserve those seats for members who attend the event. Camp Freightliner is also available as an online class. You can check the FCCCRV.com website for schedules and details.

Camp Freightliner will provide you with the information concerning your chassis about what service is required, why it is required and when it is required. It will also inform you of the operation of the systems, controls, what the various dash lights mean, how to operate safely, how to deal with emergency conditions that occur while driving and how to get help to deal with them. The information provided is specific to your chassis. I highly recommend it. I have attended it for each of the coaches I have owned.

Many members wish to take the class so they can learn to service their chassis. This is not the purpose of the class. The instructor will tell you the same thing. I was an aircraft mechanic nearly all my life. I work on a lot of things with my coach. I do not service my chassis. Few of us have the proper equipment or workshop to safely work on our chassis. A set of twenty-six ton jack stands, containers that will hold gallons of fluids and the place to properly dispose of them, just to name a few. I pay a professional to do it. They have access to the latest information and changes my chassis requires to continue to operate safely for many years and many miles.

Many think our events have no value to educate or inform on the many aspects of care, safe operation and enjoyment of their coach. As a result, we get a lot of requests to attend the Camp Freightliner without attending the associated event. Typically, our presenters include personnel from Allison Transmissions, Cummins engines, Michelin Tires, Onan (Cummins) generators, as well as FCCC and others. Often you can get your coach weighed and find out why it needs to be. The event is not just about sitting around playing bingo.

I believe the primary purpose of having a motorhome is for enjoyment. Learning about your coach, meeting other like minded RVers, a relaxing atmosphere and good entertainment seems like the definition of enjoyment to me.

Lastly, we are a non-profit organization. We are not in the business of making money from our events. We strive to provide quality educational seminars, great camaraderie with fellow RVers, fun entertainment and to break even, if we can. That means a certain minimum number of attendees are required to make that happen. So please, do not get angry when the event host says it is a requirement to attend the event if you want to attend the Camp Freightliner associated with it. There are other alternatives if you don't want to come and enjoy time with us.

We have several events planned for this year. We are working on the schedule for 2025. We will post it as soon as we have firm commitments. Check elsewhere in this issue or on the website at [fcocrv.org](http://fcocrv.org) for details. I'm sure you will find one that will fit into your schedule. If so, I'll see you there.

Last month, two MASA members were traveling in their RV when suddenly one of them needed medical attention. 911 was called, & they were taken by ground ambulance to a local hospital. Soon, it was known he needed airlift to Big Town General for emergency surgery. After a 3 week stay they were transported back home to recuperate at their local hospital. Since that time, their RV was shipped back to their driveway.

## TAMPA SUPERSHOW

On February 16, 2024, we had 26 coaches arrive at the Florida State Fair Grounds for the first FCOC area event of 2024. We were there to support Freightliner Custom Chassis and man the FCOC membership booth.

The group assembled in the staging area to be parked together. That evening, 28 of us carpooled to the quaint and accommodating FORD GARAGE for a burger-and-beer dinner.

Wednesday morning the show opened with over 400 RV's from super luxurious Prevosts to converted vans and towables, from 46-foot super fifth wheels to 14-foot pop-ups. At the Tiffin motorhome display they featured a limited edition Allegro Bus with all the bells and whistles in honor of Bob Tiffin's 86th birthday; only 86 buses will be built.

Roy and Kathy Hopper spent the morning setting up and manning the FCOC information booth within the Freightliner Chassis display where we handed out RV Soul magazines and told people about the advantages of being an FCOC member. The club event members manned the booth in 4-hour shifts for the four days of the event. They were Mike and Mikey Collins, Abe and Desiree Shally, Kevin and Judy Brannigan, John and Terry Shemack, Paul and Janene Rehder, Bob and Kelley Counter, and Graham and Justine Mongeon. I want to give them my most sincere thanks for working in the cold weather!

The entertainment was great! Thursday evening Dennis Lee and his band with a very talented fiddle player sang and played songs from the 60's through the 90's for an hour and a half.

Coffee and Donuts were served from 7:30 to 9:00 am in the Rally Club Pavillion Thursday through Sunday where we enjoyed meeting with old and new friends. On Sunday we gathered one last time to say our goodbyes until we meet at our next event in Yuma, AZ in April.

## 10 TIPS FOR COOKING IN AN RV WITH A CONVECTION MICROWAVE

Cooking in an RV with a convection microwave can be a convenient way to prepare meals while on the road. Here are 10 tips to help you make the most out of your cooking experience:

1. **Know Your Appliance:** Familiarize yourself with the features and functions of your convection microwave. Understanding how it works will enable you to use it more efficiently.
2. **Preheat Properly:** Just like with a conventional oven, preheating is essential for even cooking. Follow the manufacturer's instructions for preheating your convection microwave.
3. **Use Convection Mode:** Take advantage of the convection feature, which circulates hot air around the food for faster and more even cooking. This can help reduce cooking times compared to using only microwave mode.
4. **Adjust Cooking Times:** Keep in mind that cooking times may vary from what you're used to in a traditional oven. Start with the recommended cooking times in recipes and adjust as needed based on your experience with your specific convection microwave.
5. **Use Microwave-safe Cookware:** Make sure to use cookware that is safe for use in a microwave oven. Avoid metal containers or dishes with metallic accents, as they can cause arcing and damage to the appliance.
6. **Opt for Lightweight Cookware:** Since RVs have limited storage space and weight capacity, choose lightweight cookware that can easily be stored when not in use. Silicone bakeware and microwave-safe plastic containers are good options.
7. **Ventilation:** Proper ventilation is crucial when cooking in an RV to prevent the buildup of steam and odors. Use the exhaust fan or open windows to allow steam to escape.
8. **Monitor Food Closely:** Keep an eye on your food while it's cooking to prevent overcooking or burning. Convection microwaves can cook food faster than traditional ovens, so it's essential to check on your dishes regularly.
9. **Experiment with Recipes:** Don't be afraid to try out new recipes and experiment with different cooking techniques in your convection microwave. With some creativity, you can prepare a wide variety of dishes, from baked goods to roasted meats.
10. **Practice Safety First:** Always follow safety guidelines when using your convection microwave, such as avoiding overloading the appliance, using oven mitts when handling hot dishes, and keeping the appliance clean to prevent fire hazards.

By following these tips, you can make cooking in your RV with a convection microwave both convenient and enjoyable. Happy cooking!

## SPRING SUNSHINE: NATURE'S HAPPY DANCE

As the winter frost starts to melt away, and the days stretch out like a lazy cat in the sun, there's a palpable buzz in the air – it's the arrival of spring! Ah, that magical time of the year when Mother Nature throws off her icy blanket and dons her vibrant, flowery gown. And what's the conductor of this symphony of renewal? None other than the glorious sunshine, whose warm embrace brings joy to every corner of the earth.

Picture this: you step outside and are greeted by a chorus of birdsong, the sweet scent of blossoms wafting through the air, and a sky so blue it could rival a sapphire. It's as if the world itself is waking up from a long, restful slumber, stretching its limbs and blinking in the golden light of the sun.

But what is it about the sunshine that fills us with such boundless joy? Well, for starters, sunlight is like nature's own antidepressant – it boosts our mood, energizes our bodies, and fills us with a sense of well-being. Just a few minutes basking in its glow can leave us feeling like we're walking on sunshine (cue the Katrina and the Waves soundtrack).

And let's not forget about the magic it works on the world around us. The sun's rays coax delicate buds to unfurl their petals, coaxing them into a riot of color that paints the landscape in shades of pink, purple, and yellow. It's as if the earth itself is putting on its Sunday best, ready to strut its stuff for all the world to see.

But perhaps the most wonderful thing about the springtime sunshine is its ability to bring people together. Gone are the days of huddling indoors, wrapped in blankets and sipping hot cocoa (although, let's be real, that does sound pretty cozy). Instead, we find ourselves drawn outside, eager to soak up every last ray of sunlight with friends and family by our side.

Whether it's picnicking in the park, frolicking in fields of wildflowers, or simply lounging in the backyard with a good book, there's something undeniably magical about spending time in the sunshine. It's as if all our cares and worries melt away, leaving nothing behind but a sense of pure, unadulterated happiness.

So as we bid farewell to the winter chill and embrace the warmth of spring, let's raise a glass (or a sunflower, perhaps?) to the sunshine – nature's own little slice of happiness. After all, as the saying goes, "Here comes the sun, and I say, it's all right."

# FEATURED MEMBER

## RITA FINGSTEN

Rita and her husband joined the Freightiner family by becoming club members three years ago. They have traveled to 16 states in their RVs over the years, staying at national and state parks as often as possible, accommodating their love of being outdoors in nature and participating in outside activities in their free time.

During the show in Louisiana in 2023, FCCC mentioned a need to fill an open role for a webmaster. "I've worked in the technology industry for 49 years, so I figured that might be something I'd enjoy doing in retirement," said Rita.

"We've also met so many new people by being a member of this organization."

The Smiths enjoy being club members, especially the various activities and events they attend. "We like talking with other folks about their experiences and where they've been," Rita said.

Rita and her husband particularly enjoy traveling to Orlando and Disney World. They stay in various Florida State Parks where they enjoy the sunny weather and available amenities. Rita said her favorite part of RVing in the sunshine state is the perfect combination of Disney's fun with the relaxing RV life.

As an experienced RV-er, Rita advises those new to life on the road to carefully consider what is most necessary to bring along. "I've packed and repacked about ten times over the past three years because you think you're going to need everything and you really don't need that much when you're RVing!"

Rita would encourage anyone interested in RVing to join the FCOC. "The events are very beneficial and we've learned a lot," she said. "We've also met so many new people by being a member of this organization. We actually have made very good friends who we plan to meet up with in the future!"

# ROADSIDE RECIPES

## SLOW COOKER LEMON GARLIC CHICKEN WITH SPRING VEGETABLES

### INGREDIENTS:

- 4 boneless, skinless chicken breasts
- 1 lemon, juiced and zested
- 4 cloves garlic, minced
- 1 cup chicken broth
- 1 teaspoon dried thyme
- 1 teaspoon dried rosemary
- Salt and pepper to taste
- 1 bunch asparagus, trimmed and cut into bite-sized pieces
- 1 cup fresh or frozen peas
- 1 cup cherry tomatoes, halved
- 1 tablespoon chopped fresh parsley (for garnish)
- Optional: 2 tablespoons cornstarch + 2 tablespoons water (for thickening)

### DIRECTIONS:

1. Season chicken breasts with salt, pepper, dried thyme, and dried rosemary. Place them in the bottom of the slow cooker.
2. In a small bowl, mix together lemon juice, lemon zest, minced garlic and chicken broth. Pour this mixture over the chicken in the slow cooker.
3. Cover and cook on low for 4-6 hours or on high for 2-3 hours, or until the chicken is cooked through and tender. About 30 minutes before the chicken is done, add the trimmed asparagus, peas, and cherry tomatoes to the slow cooker. Stir gently to combine.
4. If you prefer a thicker sauce, mix cornstarch with water in a small bowl until dissolved. Stir this mixture into the slow cooker during the last 15-20 minutes of cooking. Stir well to combine and allow the sauce to thicken.
5. Serve the chicken and vegetables together, spooning some of the sauce over the top. Garnish with chopped fresh parsley for added freshness and color.

## CONVECTION MICROWAVE BROWNIES

### INGREDIENTS:

- 1/2 cup (1 stick) unsalted butter
- 1 cup granulated sugar
- 2 large eggs
- 1 teaspoon vanilla extract
- 1/3 cup unsweetened cocoa powder
- 1/2 cup all-purpose flour
- 1/4 teaspoon salt
- 1/4 teaspoon baking powder
- Optional: 1/2 cup chocolate chips or chopped nuts

### DIRECTIONS:

1. Grease a microwave-safe baking dish or line it with parchment paper.
2. Melt butter in a microwave-safe bowl, melt the butter in the convection microwave in short bursts, stirring in between until completely melted. Once the butter is melted, stir in the sugar until well combined. Then, add the eggs and vanilla extract. Mix until smooth.
3. Sift in the cocoa powder, all-purpose flour, salt, and baking powder into the wet ingredients. Mix until just combined. Be careful not to overmix. If you're using chocolate chips or nuts, fold them into the batter at this point.
4. Pour the batter into the prepared baking dish, spreading it out evenly. Preheat your convection microwave to 350°F (175°C).
5. Place the baking dish in the convection microwave and bake for about 15-20 minutes, or until a toothpick inserted into the center comes out with a few moist crumbs attached.
6. Once baked, allow the brownies to cool in the dish for a few minutes before slicing and serving. You can enjoy them warm or at room temperature. Enjoy your delicious homemade brownies made right in your convection microwave!

**The program offers current FCOC members the following discounts:  
10% OFF POSTED LABOR RATES & 10% OFF PARTS.**

It is important that you do the following; if you don't, you may not get the discount and it will be your own fault!

**You MUST tell them you are an FCOC member up front, request the discount and identify yourself by showing your current membership card. Ask to get a copy of your billing with the discount on it once your work is done.**

In developing the Oasis Dealer Discount Program, all Oasis Dealers were contacted and invited to participate. But, participation in the Oasis Dealer Discount Program is a business decision made by each individual Oasis Dealer.

If the Oasis Dealer you wish to use is not on the list of participating dealers, we would encourage you to let them know of your desire to have them participate in the program. Dealers wishing for more information about the program should contact Don Klingstein: phone (317) 324-8550, email VP.BUSDEV@FCOCR.V.ORG. Also, if you have any problem with any Oasis Dealer on the list, let Steven Bertling know, and he will try to help.

As a reminder, it's up to you to **ask first** for the discount, not after.

**PLEASE REMEMBER: THESE OASIS DEALERS ARE SUPPORTING FCOC, SO PLEASE GO TO THESE DEALERS ONLY.**
