MESSAGE FROM FREIGHTLINER Custom Chassis

Greetings, FCOC members!

I hope this Fall issue of *RV Soul* finds you enjoying autumn adventures, wherever the road takes you.

Here at FCCC, we are coming off an amazing experience at the 2026 America's Largest RV Show in Hershey, PA. There were nearly 60 coaches from a dozen OEMs that ride on FCCC's full range of chassis products. This included the Class A SL and XM lineups, as well as the increasingly popular and "Adventure Ready" S2RV in the Super C segment.

Since there continues to be so much buzz around Super C, I wanted to share with you some FCCC highlights. To begin with, the S2RV is the only Super C chassis built specifically for the RV market. It is built to maximize driving comfort, from its custom-designed suspension to its large windshield and ergonomic dash, to the impressive performance of its powerful diesel engine.

The S2RV also features the state-of-the-art, nine-speed Allison 2909MH Transmission, specifically designed for RVs. It provides an increase in fuel economy, higher torque capability and increased acceleration to 30 mph. I think we can all agree that getting great fuel economy without sacrificing performance is something worth shouting about.

And finally, I want to make sure you are aware of the expanded Road Ready maintenance video library in the My 24/7 Direct owners app. With content specific to both Class A and S2RV chassis, FCCC is committed to helping you stay on top of routine maintenance so that your coach is road ready for your next adventure.

From everyone at FCCC, we are grateful for your continued partnership and support. We wish you a wonderful fall season, wherever you are headed. Until next time, safe travels and happy trails.

CAMPFIRE NEWS

VOLUME 1 **In Today's News** **Sunny 75°**

Last month, two MASA members were traveling in their RV when suddenly one of them needed medical attention. 911 was called, & they were taken by ground ambulance to a local hospital. Soon, it was known he needed airlift to Big Town General for emergency surgery. After a 3 week stay they were transported back home to recuperate at their local hospital. Since that time, their RV was shipped back to their driveway.

FCOC PRESIDENT'S MESSAGE

Fall is here, and with it comes some exciting news to share as we close out another great year on the road together.

First, congratulations are in order. At our recent Annual Business Meeting in Amana, Iowa, the membership elected two outstanding additions to our leadership team. Jack Webb has been elected Vice President of Operations East, and his wife, Catherine Webb, was elected Secretary. Jack and Catherine have already demonstrated the kind of hands-on dedication that keeps this club moving forward, and I'm grateful they have stepped up to serve. Please join me in welcoming them to their new roles.

I also want to recognize Pattee Perez and thank her for her many years of faithful service as Secretary of our club. Pattee has given generously of her time and talents to FCOC, and her contributions have meant a great deal to me and to the organization. I will certainly miss working with her in that role.

I'm also pleased to share that Steve Jeanneret will continue as our Senior Vice President. Steve's experience, commitment, and steady hand have been tremendous assets to FCOC, and I'm glad we will have his continued leadership as we head into another year.

Opening Our Doors to More Freightliner Owners

On the business side, the membership approved an important amendment to our bylaws at the Annual Business Meeting.

For years, FCOC membership has been limited to owners of motorhomes built on Freightliner chassis manufactured in Gaffney, South Carolina—the familiar 4UZ chassis designation. That restriction has now been removed. Owners of motorhomes built on any Freightliner chassis, regardless of where the chassis was manufactured, are now eligible to join FCOC.

I especially want to welcome Super C owners with M2 chassis, who are now eligible to become part of FCOC. And, of course, we continue to welcome our S2RV chassis owners, who have always been eligible for membership.

This is an important step forward for our club. It opens our doors to a much larger community of Freightliner-chassis owners who share our interests, our maintenance and service challenges, and, most importantly, our love of traveling the open road.

Looking at New Membership Opportunities

There is another idea I would like to bring before the membership for discussion before we consider taking it to a vote. I am proposing the creation of two additional non-voting membership categories: Commercial Members and Associate Members.

As FCOC grows, so do our opportunities to build stronger relationships with the vendors, suppliers, service providers, and other businesses that support our members and our events. A Commercial Membership category could give us a clean and structured way to welcome those businesses into the FCOC community while creating a pathway toward event and club sponsorships.

Those sponsorships can provide real benefits. They can help us continue offering quality events while helping keep membership dues and rally costs reasonable.

An Associate Membership category could similarly provide a way to welcome others who have a connection to our club and community but do not qualify for full membership.

Both proposed categories would be strictly non-voting, ensuring that the direction and governance of FCOC remain firmly in the hands of our full voting members.

We also need to be careful and deliberate about how such a program is structured. FCOC is a 501(c)(7) social club, and any expansion of our relationship with commercial organizations needs to be implemented appropriately to protect our nonprofit status while giving the club additional opportunities for sponsorship and support.

I'll have more details available for discussion at our next meeting. In the meantime, I welcome your thoughts, questions, and ideas. This is our club, and I want the membership involved as we consider how best to move forward.

A Great Week in Amana

If you missed this year's meeting in Amana, you truly missed a memorable week!

With so much to see and do throughout the area, our schedule was filled with activities that gave us a wonderful opportunity to experience both the history and character of the Amana Colonies.

Our local tours offered a fascinating look at the history of the Colonies and how they evolved into the thriving communities and businesses we see today. It was an opportunity not only to enjoy the area but also to better understand the people and traditions that shaped it.

We also toured the Kinze Implement factory, where we got an up-close look at the impressive agricultural equipment the company manufactures. Seeing the technology, engineering, and specialized equipment used in modern agricultural operations made for a fascinating tour.

Another highlight was the Rapid City K9 team. Their presentation gave us an insightful look into the history, training, and day-to-day operations of the K9 program. And, of course, watching the dogs demonstrate their remarkable skills was exciting, entertaining, and certainly a crowd favorite.

I also want to extend a very special thank-you to the Davidsons and the Hodges for all the time and effort they put into preparing the wonderful meals we enjoyed throughout the week. Feeding a group like ours is no small undertaking. Their hard work and hospitality added a great deal to our time together, and I know everyone appreciated it.

Next Stop: Gillette!

If you missed Amana, make plans now so you don't miss next year.

We'll be gathering at CAM-PLEX in Gillette, Wyoming, in the heart of Wyoming's Energy Capital. We're already looking at the possibilities for next year's event, and with everything Gillette and the surrounding area have to offer, it has all the makings of an even bigger and better gathering.

After the great time we had in Amana, that sets the bar pretty high—but I think Gillette is up to the challenge!

It's a good time to be part of FCOC. Our leadership team is strong, we're opening our doors to more Freightliner owners, and we continue looking for new ways to strengthen the club while preserving the member-driven organization that has made FCOC special.

Most importantly, none of this happens without you. Thank you for your continued involvement, your ideas, your volunteer efforts, and your support of FCOC.

I look forward to seeing many of you in Gillette—and, as always, somewhere down the road.

Safe travels.

Steve Bertling

WINTERIZING YOUR RV FOR STORAGE

Is winter your RVing off-season? If so, now's a good time to start thinking about properly winterizing your RV so that you are ready to roll come springtime. Here are a few simple steps that can help prevent costly repairs down the road.

STORE INDOORS WHEN POSSIBLE

Indoor storage offers the best protection from freezing temperatures, snow, ice, moisture, and UV rays–all of which can take a toll on roofing, seals, paint, and exterior components. If indoor storage isn't available, consider a covered facility or a breathable RV cover designed for your specific type of coach. Avoid trapping moisture beneath non-breathable tarps.

PROTECT YOUR TIRES

Your RV may not be going anywhere for a few months, but its tires still need attention. Before storage, inflate them to the manufacturer's recommended pressure and inspect them for cracking, damage, or unusual wear. Tire covers can help protect against sunlight and weathering.

BLOCK ENTRY POINTS

A parked RV can look like prime winter real estate to mice and other pests. Inspect the exterior carefully for openings around plumbing, wiring, vents, storage compartments, and other penetrations. Seal appropriate gaps and make sure screens and covers are secure. Remove food, crumbs, paper products, and other materials that might attract pests or provide nesting material.

CHECK–AND PROTECT–FLUIDS

Winter storage is a good time to pay attention to your RV's fluids. Check engine oil, coolant, transmission fluid, hydraulic systems, generator fluids, and other serviceable systems according to the manufacturer's recommendations. And don't forget the RV's fresh-water and waste systems–they require their own winterization procedures to prevent freeze damage.

TREAT THE FUEL

If your RV will sit unused for several months, follow the engine and generator manufacturers' recommendations for fuel storage. Gasoline systems may benefit from an appropriate fuel stabilizer, while diesel-powered RVs can have different storage requirements, including precautions related to moisture and microbial growth. Use only additives approved for your engine and fuel system and follow the product's dosage instructions.

DON'T FORGET THE BATTERIES

Batteries can lose charge while an RV is sitting, and a discharged battery is more vulnerable to damage in freezing conditions. Follow your RV and battery manufacturers' recommendations for winter storage. Check electrolyte levels on serviceable flooded lead-acid batteries and make sure terminals are clean and protected from corrosion.

PLAN FOR SPRING

A little planning now can make that first spring trip much easier. Review your maintenance records and note anything that will be due before the next travel season. **Make a spring checklist now, so nothing's holding you back when you're ready for your first trip.**

ROADSIDE RECIPES

SLOW COOKER SPINACH ARTICHOKE DIP

Recipe from The Pioneer Woman (thepioneerwoman.com)

INGREDIENTS:

3 Tbsp. salted butter
4 garlic cloves, chopped
1 (5-ounce) bag baby spinach
2 (14-ounce) cans quartered artichoke hearts, rinsed and drained
1 (8-ounce) package cream cheese, at room temperature
1 cup sour cream or full-fat Greek yogurt
3/4 cup grated pepper jack cheese (about 3 ounces)
1/2 cup crumbled feta (about 2 ounces)
1/2 cup grated parmesan cheese (about 2 ounces)
1/3 cup milk
1/2 tsp. kosher salt
1/4 tsp. black pepper
1/4 tsp. cayenne pepper
Warm pita wedges, tortilla chips, or crackers, for serving

DIRECTIONS:

1. In a medium skillet, melt the butter over medium heat. Add the garlic and cook until fragrant, about 1 minute. Increase the heat to medium-high and add the spinach. Cook, stirring occasionally, until the spinach wilts and cooks down, about 1 minute. Remove the spinach from the skillet and put it in a small strainer. Squeeze the excess juice from the spinach back into the skillet. Set the spinach aside.
2. Add the artichokes to the liquid in the skillet and cook over medium-high heat until the liquid is cooked off and the artichokes start to get a little color, 7 to 8 minutes. Remove from the heat. Let cool slightly, then coarsely chop.
3. In a 6-quart slow cooker, stir together the spinach, artichokes, cream cheese, sour cream, pepper jack, feta, parmesan, milk, salt, black pepper, and cayenne pepper. Cover and cook on low, stirring occasionally, until the dip is warmed through and thickened, and the cheese is melted, about 2 hours. Give it a good stir before serving in the slow cooker or transferring to a serving bowl. Serve with warm pita wedges, tortilla chips, or crackers.

TIP: Once ready, this dip can sit in the slow cooker on warm for up to two hours. It can be stored in an airtight container in the refrigerator for up to four days. Reheat on the stovetop or in the microwave to serve, or enjoy it cold.

OFFERS FROM OASIS AND PARTICIPATING DEALERS

OASIS NETWORK PROGRAM CENTERS

Freightliner Custom Chassis Corporation (FCCC) and select Freightliner Oasis dealerships across the country have established a program offering members of the Freightliner Chassis Owners Club (FCOC) special pricing on service labor and parts.

All listed dealers are official Freightliner Oasis locations and, at a minimum, have technicians trained to service and repair your motorhome chassis. Many may also offer RV parking, customer lounges, pet accommodations, and other amenities.

Some participating dealers may offer:
10% OFF POSTED LABOR RATES AND 10% OFF PARTS.

It is important that you do the following. If you don't, you may not receive the discount:

You MUST inform the dealer that you are an FCOC member up front, request the discount, and identify yourself by presenting your current membership card. Ask for a copy of your invoice showing the discount once your work is completed.

In developing the Oasis Dealer Discount Program, all Oasis dealers were contacted and invited to participate. However, participation is a business decision made independently by each dealer. Due to mergers, acquisitions, and dealer consolidation, participation and discount policies may vary by location.

Members are strongly encouraged to contact the dealer in advance to confirm participation and discount details before traveling.

If the Freightliner dealer you wish to use is not on the list, we encourage you to let them know of your interest in having them participate. Dealers seeking more information about the program may contact VP.BUSDEV@FCOCRV.ORG.

If you experience any issues with a participating Oasis dealer, please contact Steven Bertling for assistance.

As a reminder, it is your responsibility to request the discount at the time the service order is opened – not after the work is completed.

PLEASE REMEMBER: THESE OASIS DEALERS SUPPORT FCOC, SO PLEASE SUPPORT THEM.
